CCASN Support for Linked Learning

CCASN provides coaching, professional development, and technical assistance to support Linked Learning that prepares students for *both* college *and* careers.

LINKED LEARNING®

CCASN's services are designed to strengthen local capacity, and are tailored to the needs of the district, school, or pathway. Fees are based on project parameters and length of contract.

CCASN's specific areas of expertise include:

- **Pathway development**, including programs of study, integrated curriculum, and team organization
- **College and career readiness**, including access to advanced coursework for all students
- Organize and effectively **operate an advisory board** with representatives from many different entities
- Work-based learning connected to coursework
- Development of CTE and academic **courses for a-g approval**
- High school **master scheduling** to support pathways
- **Use of data** for continuous improvement
